[www.ifhv.de](http://www.ifhv.de)

\* Provisional severity designation (see Table A.3 in the full report for details)

Source: Authors.

Note: For the 2024 GHI, data on the proportion of undernourished are for 2021–2023; data on child stunting and wasting are for the latest year in the period 2019–2023 for which data are available; and data on child mortality are for 2022. GHI scores were not calculated for countries for which data were not available and for countries that did not meet the GHI inclusion criteria; see Appendix A for details. The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by Welthungerhilfe (WHH), Concern Worldwide, or the Institute for International Law of Peace and Armed Conflict (IFHV).
